

Sierra Banner Stand Assembly Instructions

Remove bungied pole from back of banner stand base.

Swivel Foot 90 degrees.

Extend bungied pole and insert into hole in base.

Using your foot to hold down the base, slowly pull graphic up.

Lean banner back to hook top bar onto pole

Attach optional adjustable light to top of pole. Hook goes through the front slot.

Sierra Banner Stand Wall Assembly

Loosen knobs on connector pin(s).

Align banner stands.

Slide connector all the way into circular slot top bar of 1st banner.

Slide connector into 2nd banner. Tighten both knobs. Repeat with additional banners to make a wall.

Note: There will be an approximate 1.25" gap between banner stands.
